Winter Spa Planning Checklist

Questions to ask your supplier, electrician and builder

Before You Choose

1. **How will you use it in the cold months?**
   Think about how often and how long each visit.
2. **What does the maker say about cold weather?**
   Ask for the owner's guidance for the exact model.
3. **How is the cover handled with snow on it?**
   Ask who lifts it and where it is stored.

Plan the Space

1. **Map the walk from the back door**
   Look at steps, lighting and where snow will be cleared.
2. **Ask about the base**
   Ask the maker and a qualified professional what it needs.
3. **Talk to a licensed electrician early**
   Ask what inspection applies at your address.

Before You Sign

1. **Check permits with your municipality**
   Rules vary by town and by how it is installed.
2. **Plan for a power outage**
   Ask the supplier what to do on a very cold night.
3. **Keep the owner's documents together**
   You will want them when winter arrives.
